

PATRICIA DEWI RATIH

SKILLS

I am very hard working and persistent on something that I love to do. I can understand people in English and fluently speak it as if it is my first language. Being able to do make up and digital design, which I learned by myself, is also something I'm good at and proud of.

EXPERIENCE

Make-Up Artist | Freelance | March 2016 - now

The first job that I got is an event individual make up, over the years I have handled individual and group event makeups. I had help with the hair styling but I've never done hair styling without doing the clients' make up.

Prom Make-Up Artist | Freelance | February 2018 - ow

I got a job in Bali, Indonesia as a Prom Make-Up Artist. The event was a prom high school and I did event make-up and hair on two people.
